

LOVE,

We the people deserve to make our case  
for the kind of jurist we want to fill the  
seat of Justice Ruth Bader Ginsburg.  
Our votes are our arguments, and they  
should be heard before the ruling of  
a lifetime appointment is made by a  
vulnerable minority-majority Senate.  
I fully support holding your shameless  
colleagues to their own standards by  
any means necessary. Thank you for  
honoring this great American hero!
